THE CURRENT SITUATION

FACTS & FIGURES

317,430

Households were accepted as either homeless or at imminent risk of it by their council.

112,660

Households that were homeless living in temporary accommodation at the end of 2023.

1 in 200 households live in temporary accommodation.

Data taken from:

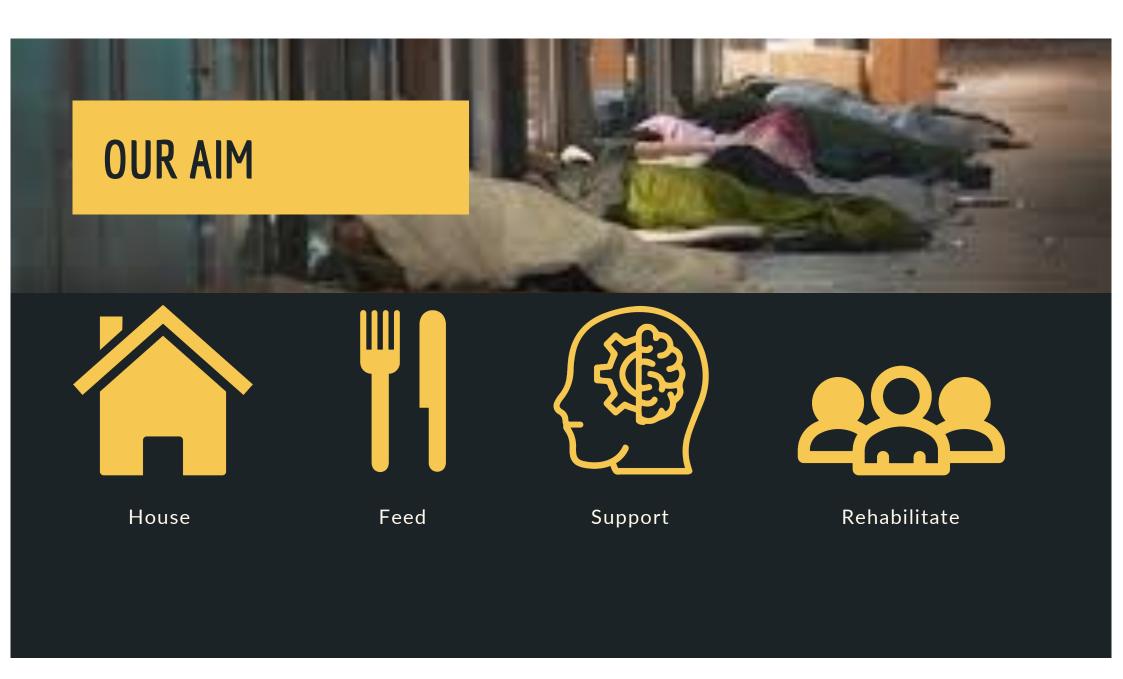

- DLUHC's official statutory homelessness statistics 2023
- The UK aid budget and support for refugees in the UK in 2022/23

4,000

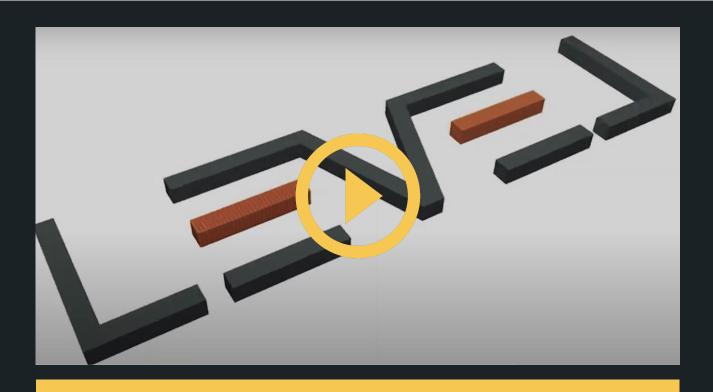

Rough sleepers in
London on any given
night between July &
September 2023.
Rough sleeping figures
have reached a record
high.

£3.7-£4 BILLION

Spent last year on asylum seeker services.
With a £654 million budget announced to tackle homelessness between 2024-2026.

DESIGN VISION

Please click the above image to be directed to our webpage where the design video can be viewed.

PUBLIC AREAS

Outdoor spaces will feature a community kitchen (run by staff), seating areas and has the ability to be used as a multi-purpose area.

PRIVATE SPACES

Each unit consists of a bed(s), storage facilities & a shower space with a toilet and sink

PROCURING SUITABLE SITES

Our goal is to both house & rehabilitate tenants, meaning they cannot be isolated from society. The adaptability of our designs, along with your help in selecting suitable sites, can overcome this. This is a suitable & effective for housing migrants (asylum seekers) dispersed around the country.

POLICING

We aim to provide a safe, non-violent, substance free experience to residents.

NHS & HEALTHCARE ACCESS

Asylum seekers might have varying levels of access to the National Health Service (NHS) based on their status. Ensuring adequate healthcare access for all is a neccessity for us.

IMPACT

EASING STRAIN

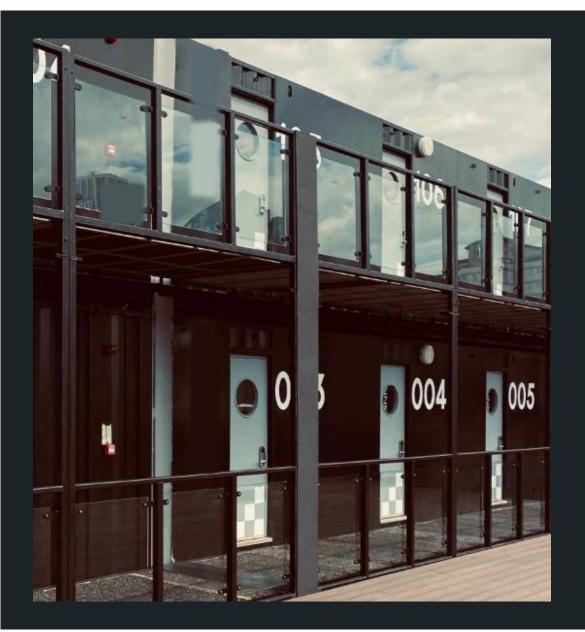

Through our all-inclusive solution, we will aid in alleviating pressure from councils, shelters & non-profit services.

COST

With the UK poised to spend upwards of £3.7-£4 billion next year, we offer a prestige yet cut rate solution to the crises occurring effectively halving the current cost for housing asylum seekers.

REHABILITATION (Homeless)

Our solution aims to house AND rehabilitate residents, with the aim of them becoming fully self-sufficient and reintegrating into society.

SCALABILITY

We aim for each community to sit between 48 residents, for management purposes. But we have the unique ability to scale up or down at the request.

SUSTAINABILITY

Our solution is temporary or as long as required, we can house, feed and rehabilitate residents for as long as necessary.

MOVING FORWARD

We have all of the necessary financial information to answer any questions you may have.

TIMELINE

We are keen to roll our solution out as quickly as possible with your help.
We will prepare a custom calender for your project.
